

Coalition in Focus Example:

Highlighted short-term outcomes must tie to one local condition from your logic model

Problem

Root Causes

***Local Conditions & Data
(Specific, identifiable, actionable)***

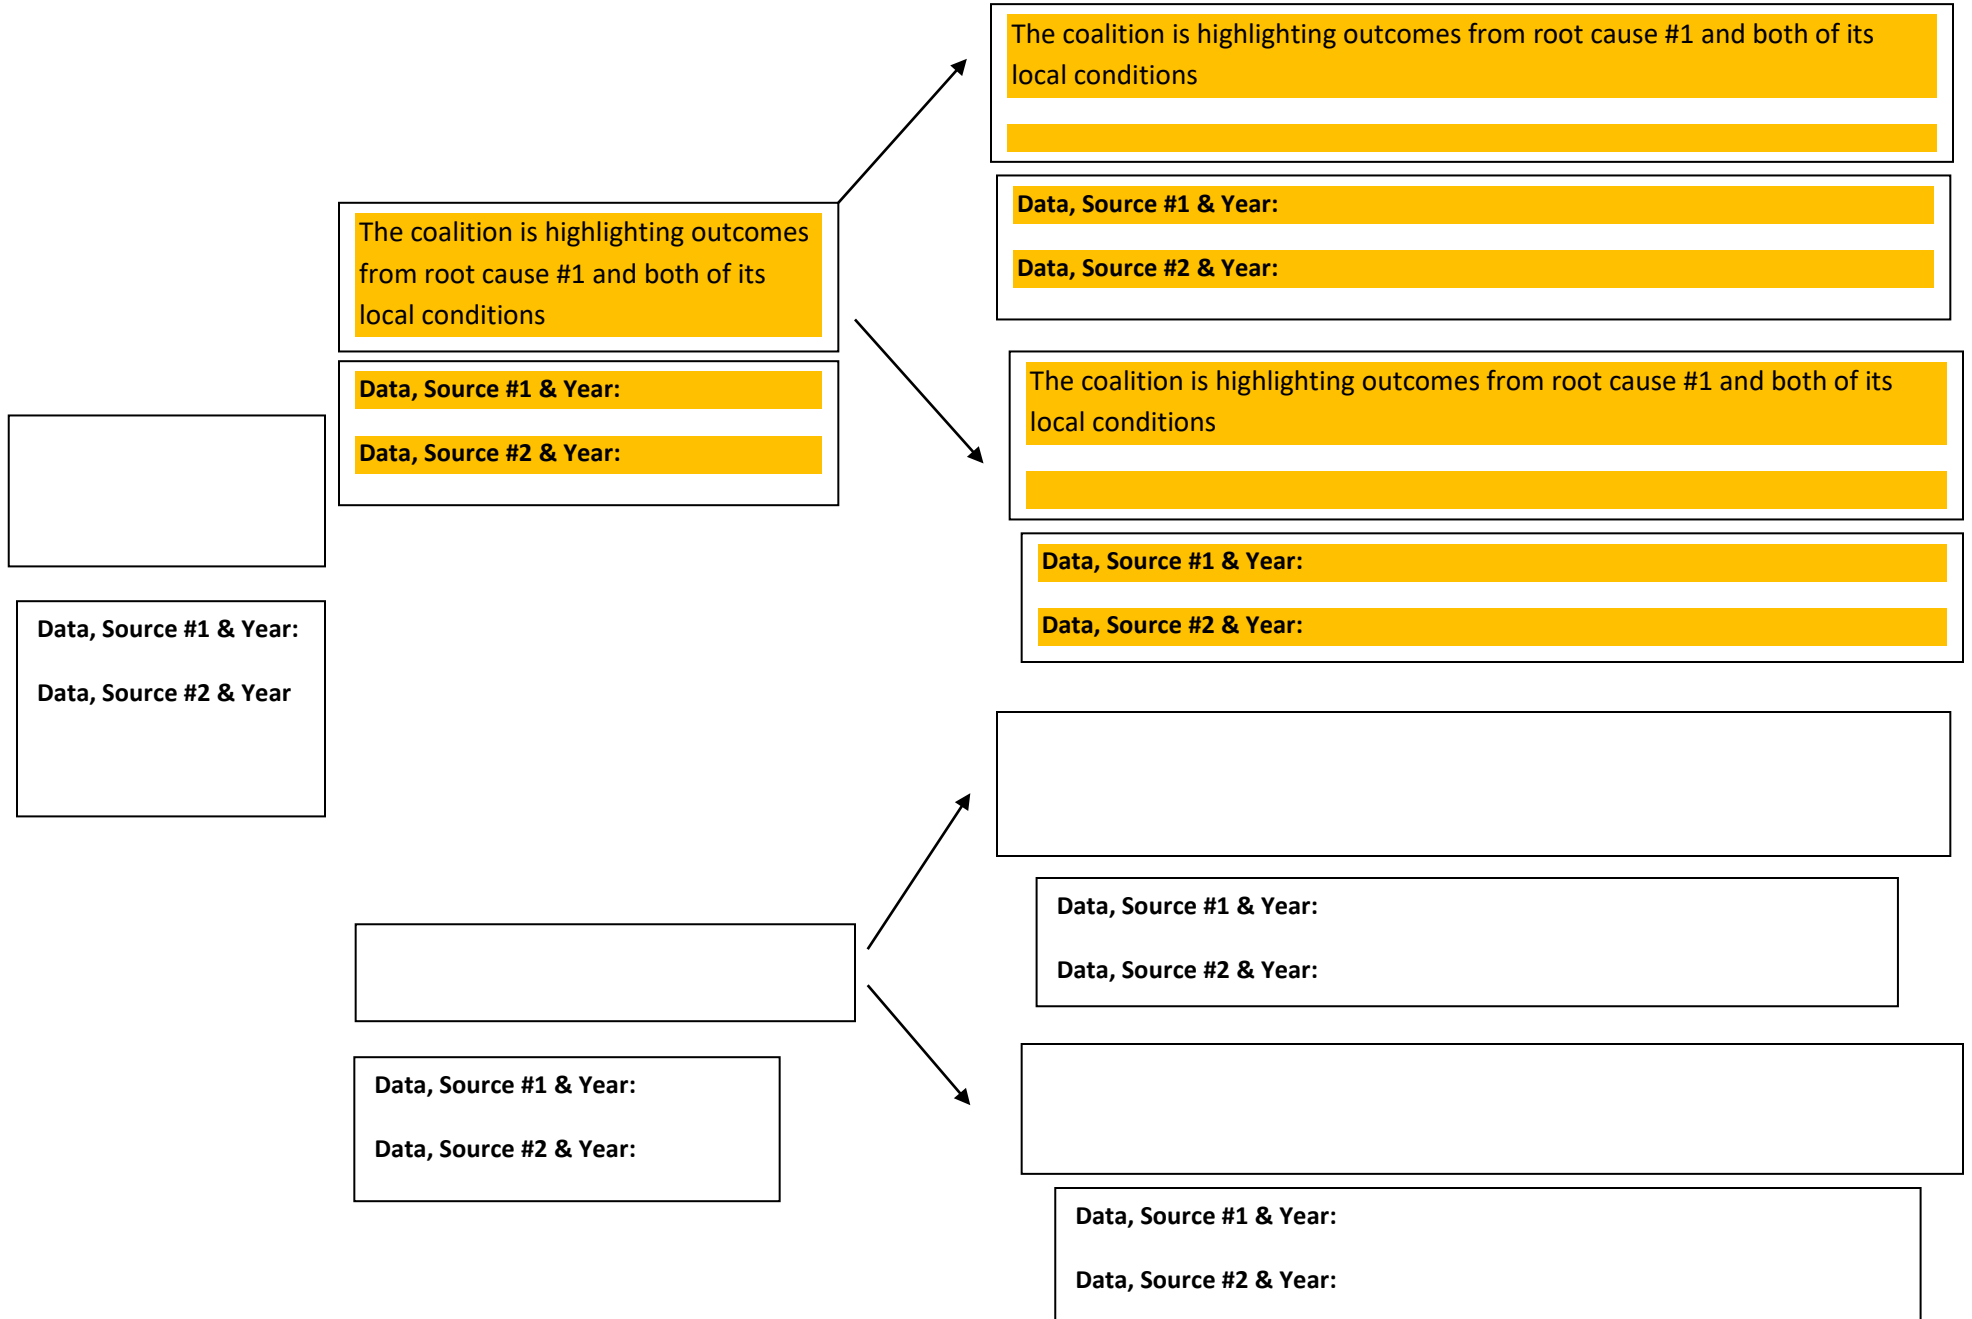

Coalition of Excellence Example Option #1

Highlighted intermediate-term outcomes must tie to two local conditions for one root cause from your logic model

Problem

Root Causes

**Local Conditions & Data
(Specific, identifiable, actionable)**

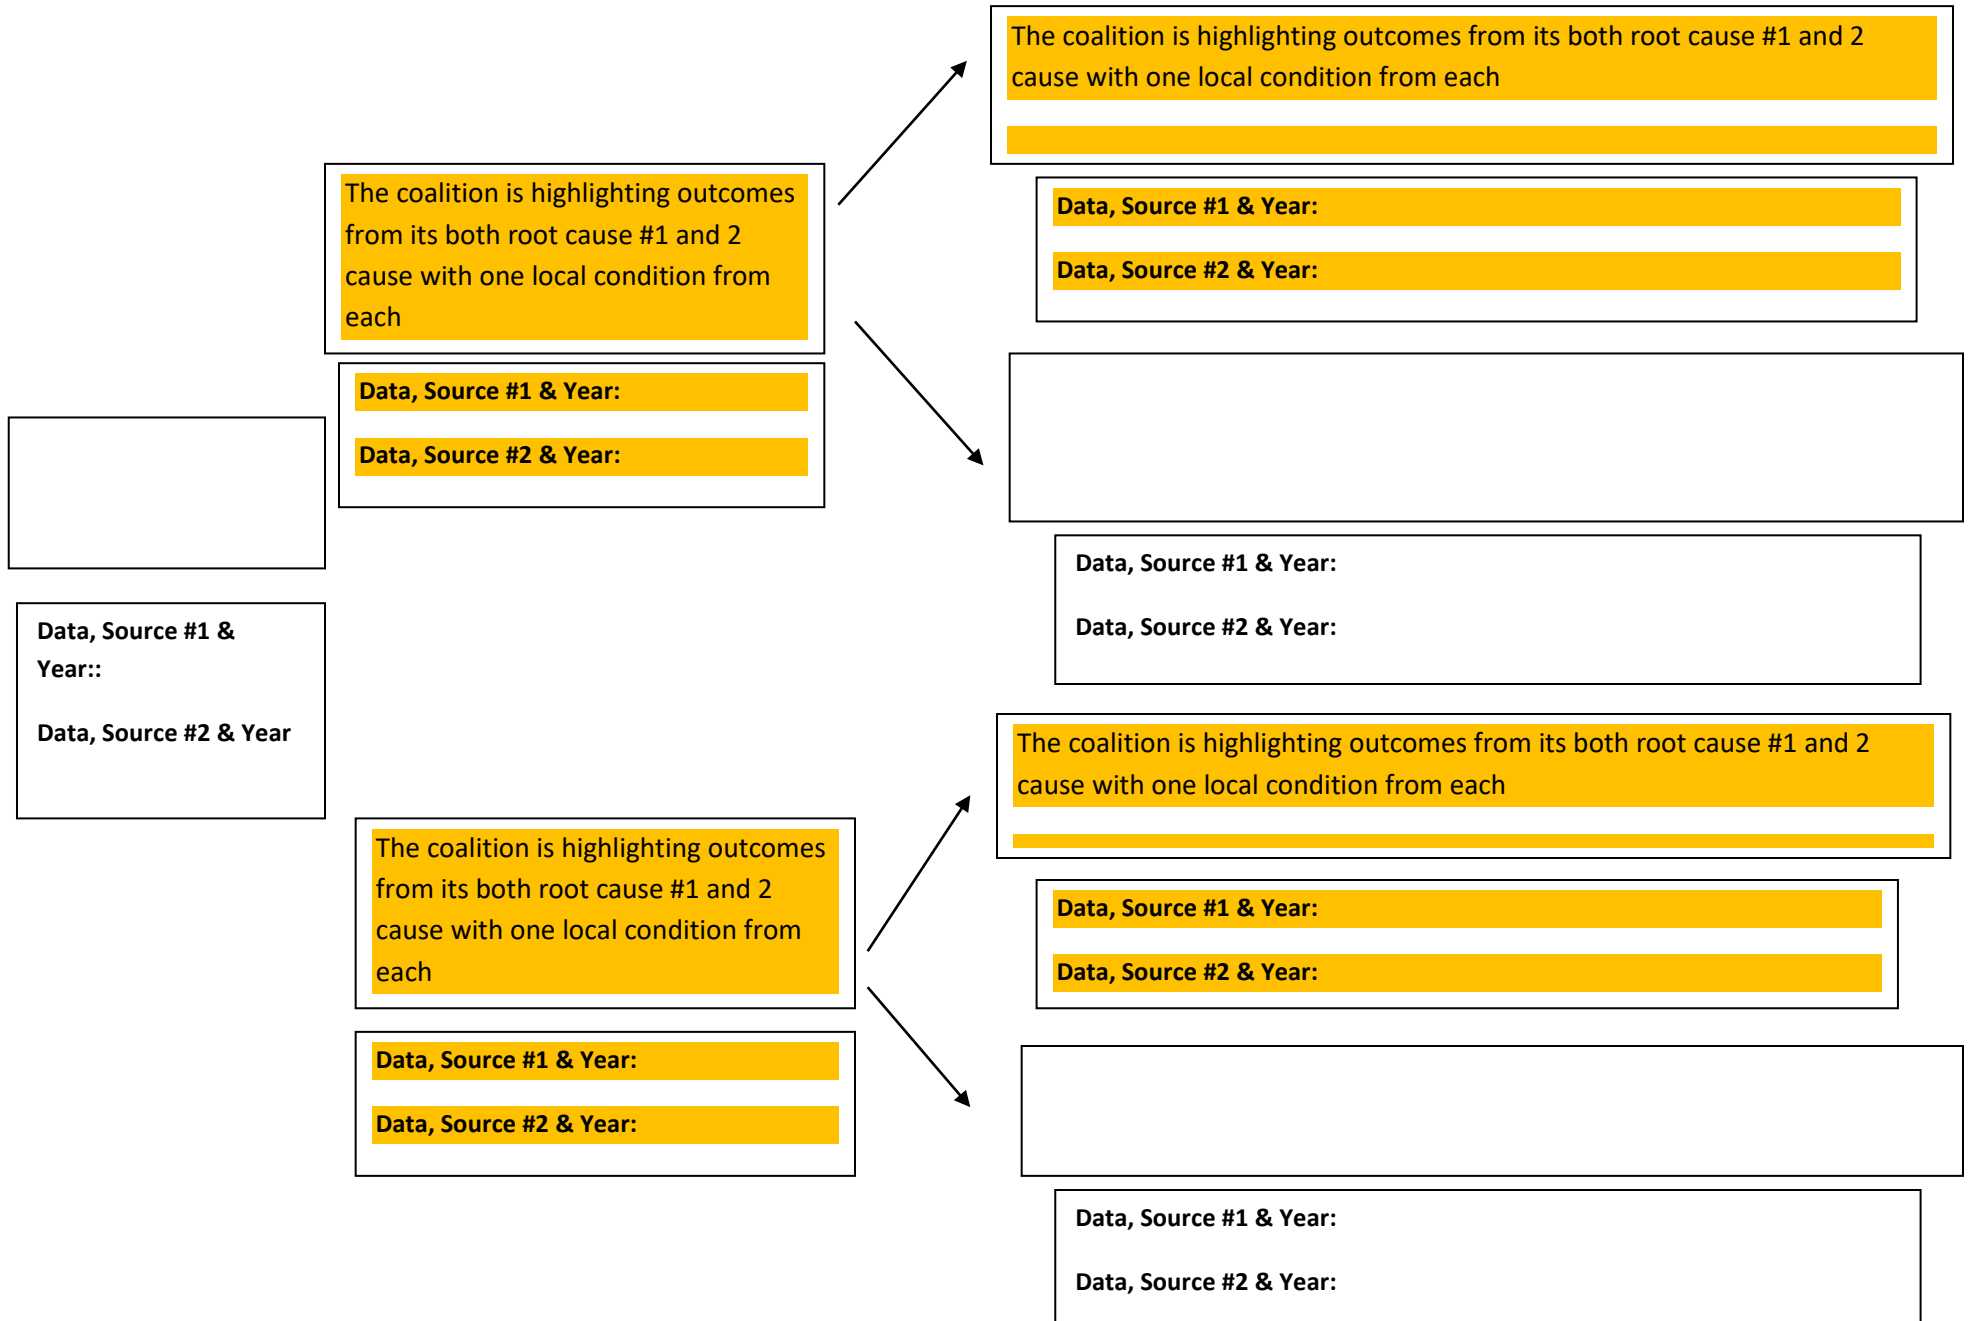

Coalition of Excellence Example Option #2

Highlighted intermediate-term outcomes must tie to one local condition for two root causes from your logic model

Problem

Root Causes

**Local Conditions & Data
(Specific, identifiable, actionable)**

Coalition of the Year Example Option #1

Highlighted long-term outcomes must tie to two local conditions for one root cause and the problem from your logic model

Problem

Root Causes

Local Conditions & Data (Specific, identifiable, actionable)

The coalition is highlighting the outcomes from the problem, one root cause its two local conditions

The coalition is highlighting the outcomes from the problem, one root cause its two local conditions

Coalition of the Year Example Option #2

Highlighted long-term outcomes must tie to one local condition for two root causes and the problem from your logic model

Problem

Root Causes

Local Conditions & Data (Specific, identifiable, actionable)

The coalition is highlighting the outcomes from the problem, two root cause and one local condition from each

The coalition is highlighting the outcomes from the problem, root cause #1 and one of its local conditions

Data, Source #1 & Year:
Data, Source #2 & Year:

The coalition is highlighting the outcomes from the problem, root cause #2 and one of its local conditions

Data, Source #1 & Year:
Data, Source #2 & Year:

The coalition is highlighting the outcomes from the problem, root cause #1 and one of its local conditions
